

ACADEMIC CAREERS IN
ENGINEERING & SCIENCE

PLEASE JOIN US

MEET & GREET FORD LECTURER DR. MARTHA GRAY

INVITING FEMALE GRADUATE
STUDENTS IN ENGINEERING, BIOLOGY,
CHEMISTRY, & ORTHOPEDICS

LOCATION: NORD HALL, ROOM 310

DATE: TUESDAY, MARCH 15, 2005

TIME: 1:45 PM -3:15 PM

Light Refreshments will be served.

Please join us for an *invitation only* session of open dialogue with Dr. Martha L. Gray, director of the Harvard-MIT division of Health Sciences and Technology (HST). Dr. Gray has established several major new research and educational programs under her leadership that train future leaders to translate science and technology to clinical use through mentoring and training. As an professor and scientist, some of her research interests include cartilage degeneration, connective tissue physiology, imaging, and microfabrication.

Please RSVP to ann.thomas@case.edu by March 14, 2005

With generous support from the National Science Foundation ADVANCE award, the Academic Careers in Engineering and Science (ACES) program at Case Western Reserve University seeks to contribute to the development of a national science and engineering workforce that includes the full participation women at all levels of faculty and academic leadership.
