

How To Buy: Radioisotopes

COMMODITY DESCRIPTION

This commodity includes radioisotopes.

VENDOR: See “CONTACTS” below **VENDOR CLASSIFICATION:** [Preferred Vendors](#)

The Office of Radiation Safety has established the following procedure when ordering radioactive material.

- All radioactive material will be ordered using a Peoplesoft eProcurement Requisition, including replacement orders and no charge samples.
- Each Purchase Requisition must have the following information: Isotope, Quantity and Unit of isotope ordered - (i.e. 1x250 uCi), Select category: RADIOACT
- The Purchase Requisition will be routed through electronic workflow to the Office of Radiation Safety for approval.
- There is a 2:00pm cut-off time in the Radiation Safety Office for processing radioactive requisitions due the following business day.
- Upon approval by the Office of Radiation Safety the purchase requisition will route to the Purchasing Department for processing.
- Note: Orders for radioactive material to be delivered to Metrohealth Medical Center or the VA Medical Center do not require the approval of the Case Office of Radiation Safety. Contact the Radiation Safety Office at those locations for approval instructions.
