## NOTES TO REVENUE

- (1) **Undergraduate Tuition:** Decreased \$689K or 0.5% as a result of decrease in enrollment by 175 first-year students offset by a 3.9% tuition rate increase.
- (2) **Summer Tuition:** Total decrease of \$356K or 3.8%. WSOM, MSASS and NURS down compared to FY11 forecast.
- (3) **Professional Tuition:** Increased \$3.4M or 2.9% due to 4.5 % average tuition increase. Offset by lower enrollment at WSOM and LAW.
- (4) **Graduate Tuition:** Increased \$2.1M or 6.4% due to 4.5% average tuition increases and higher enrollment at CSOM (new MS in Anesthesia program).
- (5) **Restricted Endowment:** Increased \$2.8M or 6.1% as a net result of increased Funds Held by Others of \$4.8M offset by \$2.0M decrease in pooled funds.
- (6) **Unrestricted Endowment:** No substantial change from Q3 FY11 forecast.
- (7) **Research & Training:** Decreased \$7.1M or 2.2% as a result of reductions in all areas; larger reductions at CSOM due to reduction of stimulus funds, NURS, and WSOM.
- (8) **Restricted Gifts:** Decreased \$2.8M or 6.3% overall, primarily at CAS where faculty set up spending was incurred in FY11. UGEN restricted gifts are lower with reduced expenditures for federal and state student aid. The decreases are offset by additional spending for new faculty start-ups at CSOM and WSOM. Revenue decrease correlates to corresponding spending decreases.
- (9) **Overhead Recovery:** Decreased \$3.7M or 4.6 % as research is down at CSOM.
- (10) **Unrestricted Gifts:** Increased \$248K or 6.9% with increases at all schools with the exception of CAS.
- (11) **State Support:** No substantial change from FY11 budget which incorporated state budget reductions.
- (12) **Organized Activities:** Increased \$312K or 2.7% primarily at WSOM for Executive Education programs.
- (13) **Other Income:** Decreased \$2.0M or 5.0% primarily at UGEN due to prior year non-recurring settlements and tech transfer revenue, offset by increased hospital revenue at CSOM due to restrictions being met in same year funds received.
- (14) **Auxiliaries:** Increased \$1.5M or 2.9% due to rate increases for Housing and Food Service, as well as additional rental property revenue.

## NOTES TO EXPENSE

- (1) **Faculty Salaries:** Increased \$2.8M or 2.1% overall primarily due to merit and promotional increases, with WSOM down due to a decrease in adjunct faculty.
- (2) **Staff Salaries:** Increased \$1.5M or 1.6% with increases at WSOM, MSASS and DENT with decreases at CAS, CSE and CSOM.
- (3) **Fringe Benefits:** Total increase of \$5.8M or 9.0% is due to a 1.9% increase in total salaries with the balance due to increases in the fringe benefit rates. The non-federal rate is increasing from 29.5% to 30.5%. The allowable federal fringe rate is 29.5%.
- (4) **Student Salaries:** Decreased \$1.7M or 6.1% primarily at CSOM and CSE.
- (5) **Student Aid:** Decreased \$2.0M or 1.5% due to less than anticipated first year undergraduate student enrollment.
- (6) **Non-salary:** Decreased \$14.4M or 5.1% due to one-time start-up expense at CSOM, CAS and DENT in FY11.

**Please note that all Indirect Expense pools have incurred a 5% Cost Improvement Plan that includes vacant position elimination, staff hours realignment and reduced travel and operations spending.**

- (7) **Library:** Decreased \$34K or 0.2%.
- (8) **Student Services:** Decreased \$308K or 1.6% as a result of the cost improvement plan and the addition of Education Abroad and International Student Services programs which are matched by increased undergraduate revenue.
- (9) **Plant Services:** Increased \$586K or 1.1% due to higher utility costs of \$1.0 M partially offset by Energy Conservation Plan savings of \$500K.
- (10) **Information Services:** Decreased \$832K or 3.2% due to reductions in operations expense contracts.
- (11) **University Services:** Decreased \$3.6M or 7.6% due to spending reductions.
- (12) **Auxiliaries:** Increased \$2.3M or 4.6% due to the addition of Uptown Bookstore start-up expense, as well as additional expense for rental properties and routine increases for Housing and Food Service.

** Defined as students who entered for Fall 2006 and later, this distinction is used through FY11 and discontinued in FY12.					
(1) The part-time undergraduate rates for 2011 are: \$1,513 for students who first enrolled prior to Fall 2006, and \$1,554 for all others. The part-time rate for 2012 will be \$1,615. Part-time in all cases is defined as fewer than 12 credit hours per semester.					
(2) The part-time graduate rate is \$1,430 for 2011 and \$1,487 for 2012.					
(3) Students in the part-time MBA program will pay the credit hour rate of \$1,620 for up to 12 credit hours during a semester; if enrolled for more than 12 hours they will pay \$19,440 plus \$1,620 for each credit hour in excess of 12.					
Continuing students in the full-time MBA program enrolling in more than 20 credit hours will pay \$1,620 per credit hour for hours in excess of 20 in addition to the full-time rate of \$19,440/semester. New full-time students enrolling in more than 20 credit hours will pay \$1,771 per credit hour for hours in excess of 20 in addition to the full-time rate of \$21,250/semester. Part-time students in the Mactt or any MSM program will pay \$1,771 per credit hour.					
MBA+ Program - Students who have a Weatherhead MBA degree may enroll in additional electives after graduation at a 50% tuition reduction. MBA& Program - Students who have an MBA degree from any accredited business school may enroll in Weatherhead elective courses with a 25% reduction in the tuition.					
(4) The Applied Social Sciences part-time rate is \$1,144 for 2011 and \$1,190 for 2012. The full time rate will apply to students who take between 12 and 16 credit hours in a semester. For students who take more than 16 credits in a semester, the per credit hour rate will be charged for the additional credits.					
(5) The School of Law's part-time rate in 2011 is \$1,564 for third year students and \$1,686 for first year and second year students. The part-time rate in 2012 will be \$1,769.

## INCOME AND EXPENSE ALLOCATION PRACTICES

The University operates under a decentralized structure with the management philosophy that each college or school is responsible for the planning and implementation of academic programs, income development, and expenditure management – all within a long-run fiscal balance. This concept is implemented through the assignment of incomes and expenses to each management center. Because not all incomes or expenses are directly developed by or attached to a school, allocation rules assign certain incomes and indirect expenses or costs for support services. The operating principle guiding these rules is that they fairly assign income or expense as a proxy for actual direct generation of income or occurrence of expense.

### **INCOMES ASSIGNED:**

Undergraduate Tuition is assigned to those schools that teach undergraduates, primarily the College of Arts & Science, and the Case School of Engineering. The Weatherhead School of Management and the School of Nursing also receive undergraduate tuition. SAGES tuition is distributed to the schools teaching those courses.

Tuition revenue net of unfunded financial aid is distributed among the schools as follows: 85% is assigned based upon the proportion of undergraduate student credit hours taught by each school over the preceding two years; the remaining 15% is assigned based upon the proportion of baccalaureate degrees awarded over the preceding two years.

Graduate and Professional Tuition is assigned to the schools in which the student is registered as a degree student. Special joint programs among schools may have specific rules for tuition sharing, e.g. joint JD/MBA.

Endowment funds are pooled and the funds invested therein have been unitized. All funds are classified as belonging to a school or University General. Each year, Trustees approve a payout rate. For FY12, that amount is \$1.936 per unit. Income is assigned based upon the number of “units” held by each school multiplied by the payout rate. The income from a small number of endowment funds jointly shared by the schools teaching undergraduates is assigned based upon undergraduate credit hours taught.

All other income is developed directly by the schools’ efforts and the schools receive full credit for sums actually received. Incomes generated for the University as a whole are recorded in the school column under the University General designation. Incomes shown as restricted are only to be used by a particular school or for a particular purpose. Restricted incomes (restricted endowment, research and training grants, and restricted gifts) support “funded” expense. In these instances, income is recognized as the matching expense is incurred. All other incomes are unrestricted and are assigned by the allocation practices described above. These incomes are recorded as revenue when received and support a school’s unrestricted and “indirect” expenditures.

## INCOME AND EXPENSE ALLOCATION PRACTICES

### INDIRECT EXPENSES ASSIGNED:

Each school incurs operating expenses that appear in the budget as “Direct Expense.” These expenditures include faculty, staff and student salaries, fringe benefits, graduate or professional student aid, and non-salary expenses. In addition to these expenses, each school is allocated a share of the costs to provide central and support services. These expenses are categorized as Library, University Services, Student Services, Plant Services, and Information Technology Services. These expenditures are recorded in each budget summary as indirect expenses.

### LIBRARY

Library includes the operation of the University Library, Health Science Library, Law Library, and the MSASS Library. 75% of the University Library is distributed to the core colleges – CAS, CSE, WSOM and a small portion to NURS to recognize this Library’s support of the BSN program. The remaining 25% is distributed to the other schools. 75% of the Health Science Library is distributed to CSOM, DENT, and NURS with 25% assigned to the other schools. MSASS supports 75% of its Library with the balance distributed to the other schools. LAW pays 100% of its own Library’s cost; however, its share of the other Libraries was calculated without the inclusion of estimated materials in those Libraries because it covers the full expense for its own extensive materials collection. The allocation uses un-weighted student, faculty, and staff counts. The use of all appointed faculty, lecturers, and adjunct faculty is being phased out over a two year period. The FY12 allocation included one-half of these individuals in the faculty and staff counts.

The MSASS Library serves as the primary resource for the Mandel Center and is assigned a portion of the MSASS Library costs. For FY12, the assigned amount is \$84,139.

### PLANT SERVICES

Plant Services includes the expenses for utilities (electricity, steam/gas, water/sewer, chilled water, and other services) and plant operations (custodial, building maintenance, radiation safety, security, and environmental affairs). Utilities expenses are assigned to schools based upon meter readings and related charges. The rate is adjusted for the budget year to account for estimated changes in utility rates and/or usage. An adjusted cost per square foot for utilities is calculated and multiplied by the gross square footage in each building.

Non-utility expenses are assigned based upon the average remaining cost for operating all the academic buildings in the University. The average cost per square foot is multiplied by the number of gross square feet assigned to each school or function. Utility and non-utility costs for parts of buildings used for indirect or support services, e.g. libraries, student services, or University administrative services, are first allocated to the support service and then recharged through the appropriate mechanism.

## INCOME AND EXPENSE ALLOCATION PRACTICES

### STUDENT SERVICES

Student Services includes the expenses associated with the following operations: Enrollment Management, Undergraduate Studies, Financial Aid, Registrar, Student Affairs, Career Planning, Educational Support Services, Thwing Center, International Students, Education Abroad, Minority Programs, Physical Education and Athletics, UCITE, SOURCE and the Graduate Dean. The costs associated with the SAGES program (net of the tuition generated by non-school based lecturers) are also included in this category and are allocated on the basis of SAGES credit hours taught. Appendix C1 lists the cost pool to which each of these programs has been assigned (in whole or in part), with each pool having an assignment formula. Most of these costs are assigned on the basis of the students benefiting from the program or service. Several programs are believed to have an overall University purpose and are assigned using the University Services distribution. The student numbers used in the assignment are an average of the FY10 and FY11 enrollments.

### INFORMATION TECHNOLOGY SERVICES

Information Technology Services includes the costs of establishing, maintaining, and providing services through the campus network, central information processing, and academic computing as well as the operation of the ITS division.

IT costs have been separated into four cost pools, each with its own distribution formula. The first pool, Core Technology, covers the core network equipment, wiring and maintenance. It includes the debt service relating to the deployment of this technology and is distributed on a square footage allocation, including a school's share of indirect space such as Library and Student Service space.

The Instructional component of the IT budget has been allocated using the 2 year average student count. It includes support for Blackboard, Technology Enhanced Classrooms, and other curriculum support. This component also includes the operations of the Student Information System and related debt service.

The cost of providing core administrative systems such as administrative computing, the HCM system, the Data Warehouse, and the debt service on the implementation of the ERP systems is distributed using the University Services distribution (percentage of direct expense).

The remaining cost pool, referred to as "infrastructure" covers basic network services – email, servers, security, storage, VOIP, Help Desk and other network services. These costs are distributed using a faculty/staff/student count and it utilizes the same counts used for the Library distribution.

## INCOME AND EXPENSE ALLOCATION PRACTICES

### **UNIVERSITY SERVICES**

University Services includes the general administrative expenses associated with the following operations: President's Office, Provost's Office, International Affairs, Financial and Business Administration, Development and University Relations, Budget and Financial Planning, Planning and Institutional Research, General Counsel, Technology Transfer and Research Administration and the Office of Inclusion, Diversity and Equal Opportunity. In addition, insurance costs, auditing, and other expenses that are general to the operations of the University and not related specifically to programs of a particular school or function are charged in University Services to be allocated using the percentage of direct expense methodology. A two year average, using the second and third years preceding the budget year, are used in the calculation. The research and training expenditures that are based at the Cleveland Clinic are deducted from the expenses of CSOM for this calculation. It should also be noted that certain University Service expenses are not allocated to the schools because there are revenue streams that support the expense. These include the portion of Development and University Relations expense covered by the campaign planning fee, and a portion of Technology Transfer expense.

### **TRANSFERS/CONTINGENCIES AND SURPLUS**

Schools are permitted to retain the excess of revenues over expenditures in a reserve account. Expenditures against the reserve account require the approval of the Provost. As all schools are expected to operate in financial equilibrium over the long run, current year losses must be charged against the reserve account.

## TECHNICAL SUPPLEMENT TO EXPENSE ALLOCATION PRACTICES

The numbers used to assign income and expense in the 2012 Budget are reported below and are based upon the principles described in the appropriate section of Appendix C.

### **INCOMES ASSIGNED (\$000 Omitted):**

Undergraduate tuition assignment: 3,777 FTE students average for year, 34.6 credit hours /student. 875 freshmen.  
Undergraduate tuition revenues are distributed using the average credit hours taught by the management center over the prior two fiscal years to calculate the percentage distribution. The degrees granted percentage is an average of the FY10 actual and an FY11 estimate.

* Utility expense is assigned based upon estimated annual costs for electricity, steam/gas, and water/sewer. The estimated annual costs are assigned based on square footage.						
** The cost for Plant Services other than utilities is \$7.2233 per gross square foot. These costs are assigned based upon square footage. (Note: Totals may be slightly different due to rounding.)						
*** Not included in Plant Services allocation.
