The College of Arts and Sciences traces its origins to several predecessor institutions, including Adelbert College, Flora Stone Mather College, Cleveland College, Western Reserve College, and the science and mathematics programs of Case Institute of Technology.

Today, the college offers highly regarded programs in the arts, humanities, social sciences, and natural and mathematical sciences.

The College of Arts and Sciences at Case Western Reserve University combines a history of educational excellence with a commitment to innovation and discovery.

- Political Science
- Psychological Sciences
  - Communication Sciences
  - Psychology
- Religious Studies
- Sociology
- Statistics
- Theater

Affiliated Departments
- Biochemistry
- Computer Science/Electrical Engineering
- Economics
- Nutrition
Points of Pride

> **A Vibrant Undergraduate Experience.** Students enjoy close interaction with their professors. They collaborate with faculty researchers and design independent projects. They also participate in a vast array of athletic, cultural and service activities.

> **Innovative Research and Scholarship.** In the College of Arts and Sciences, biologists are developing cell-based therapies for diseases such as asthma and rheumatoid arthritis, cognitive scientists are exploring the sources of human creativity, and anthropologists are documenting the modern history of Tibet. Faculty authors include a critically acclaimed novelist and a Pulitzer Prize-winning journalist.

> **Collaborations.** The college sponsors joint programs with the Cleveland Museum of Art, the Cleveland Institute of Music, Cleveland Play House, the Cleveland Botanical Garden and the Cleveland Museum of Natural History. A creative partnership with The Temple – Tifereth Israel in University Circle will transform this historical landmark into a new home for the performing arts.

> **International Reach.** College faculty are engaged in research collaborations on every continent. Increasing numbers of undergraduate and graduate students are pursuing research and study opportunities worldwide. While on campus, students interact with scholars and peers overseas through videoconferencing and other advanced networking technologies.
