Case Western Reserve University seeks to enroll international students who will have a successful student experience, engage fully in the student life of CWRU and graduate at a rate equal to non international students.

The Student Recruitment, Retention and Student Life Working Group shall make recommendations for consideration by the International Planning Committee that support the achievement of these goals. Specific recommendations should address the following areas:

- size and geographic composition of the international undergraduate student body
- recruitment, including financial aid for international students, use of agents in recruitment, dual degree programs with foreign universities and ELS
- international admission policies regarding English proficiency and other relevant academic competencies
- how a campus culture supports international students and encourages an open and welcoming community with a focus especially on orientation and the first year experience
- other areas, with the concurrence of the International Planning Committee, that the Working Group deems important

An interim report with recommendations, required resources and potential funding sources to support the achievement of these goals should be submitted by December 1, 2010 and a final report by March 1, 2011.
