

### International Travel

Information Technology Services is available to assist faculty, staff and student travelers as they plan for their technology needs during international travel. Assistance can range from guidance on mobile phones to recommendations for a complete IT infrastructure for an ongoing project spanning the borders of multiple countries.

ITS, in partnership with the Center for International Affairs, has created a [website](#) with information and resources that can be helpful as you plan to communicate and compute while travelling abroad at [case.edu/its/travelsupport/](http://case.edu/its/travelsupport/)

For more information or to request assistance, contact the ITS Service Desk at [help@case.edu](mailto:help@case.edu) or 216.368.HELP (4357).

Additional information can be found on the Center for International Affairs website at [case.edu/international](http://case.edu/international)
