

Printing Screens from the SIS

The Student Information System (SIS) does not support the printing of pages from the browser **Print** button. If you try to print a SIS screen from an Internet browser, the printed page will be blank or show only the header of the page.

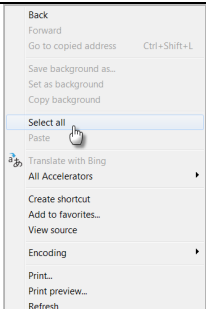

There are a few ways to manipulate printing options in Internet Explorer and Firefox that will allow you to print full pages from the SIS.

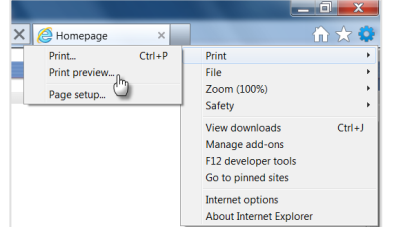

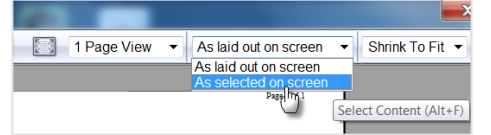

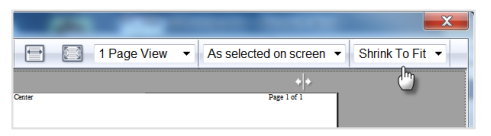

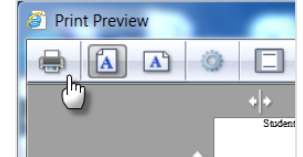

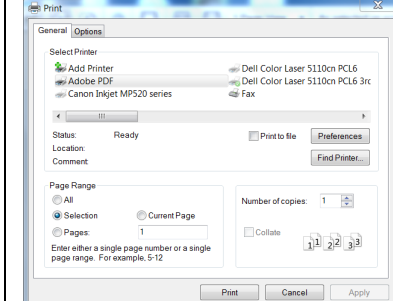

Internet Explorer

Option 1

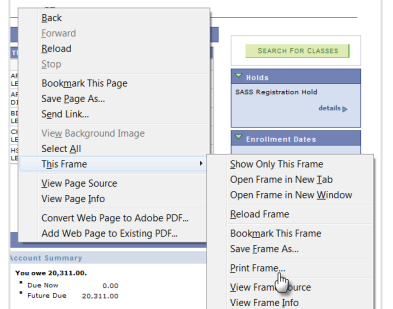

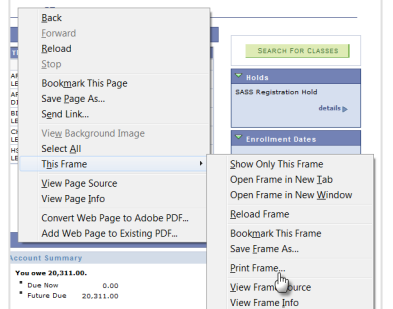

<p>1. Right click your mouse on the screen and select Print.</p>	
<p>2. The Print window will appear. Select your printer and click the Print button.</p>	

Option 2

<p>1. Right click your mouse on the page and click Select all.</p>	
---	---

<p>2. In IE 9: Select Tools, Print, then Print Preview.</p> <p>In IE 8: Select File, then Print Preview.</p>	
<p>3. The Print Preview window appears. Click the second dropdown box from the left and select As selected on screen.</p>	
<p>4. Click the last dropdown box from the left and select Shrink to fit (if it doesn't appear already).</p>	
<p>5. Click the Print button on the top left.</p>	
<p>6. The Print window will appear. Select your printer and click the Print button.</p>	

Mozilla Firefox

<p>1. Right click your mouse on the screen.</p>	
<p>2. Place your mouse over This Frame and select Print Frame.</p>	

3. The print dialog box will appear. Select your printer and click **OK**.
