

Practice-Based Network Research Seminar Series

Thursdays 6-7pm
8/28/2008 through 11/20/2008

An expert will lecture on a PBRN research topic each week:

- Theory, history and scope of PBRNs (8/28)
- Working with community-based practices (9/4)
- Network development and maintenance (9/11)
- PBRN data collection methods (9/18)
- Sampling and nested analyses in PBRNs (9/25)
- Quantitative data analysis (10/2)
- Human subjects protection and data privacy in PBRN research (10/9)
- Qualitative methods and multi-method research design (10/16)
- Participatory research in PBRNs (10/23)
- Quality improvement research (10/30)
- Alliances and methods for practice improvement research (11/6)
- Funding for PBRN research (11/13)
- Writing for PBRN research for publication (11/20)

A light meal will be provided.

Lectures will be followed by discussion, idea-sharing, and networking opportunities.

Lecturers:

- Barbara Daly, PhD, RN, FAAN, Professor and Director of Clinical Ethics Program, University Hospitals of Cleveland, CWRU
- Susan Flocke, PhD, Associate Professor, Family Medicine, Epidemiology & Biostatistics, CWRU
- Donald Goddard, MD, Senior Clinical Instructor, CWRU, CMO UH Geauga Extended Care Campus
- Maghboe Mosavel, PhD, Assistant Professor, CWRU
- Kurt Stange, MD, PhD, Professor, Family Medicine, Epidemiology & Biostatistics, Oncology and Sociology, CWRU
- James Werner, PhD, Assistant Professor, Family Medicine, CWRU
- Stephen Zyzanski, PhD, Professor, Family Medicine, Epidemiology & Biostatistics, CWRU

Practice-based research networks (PBRNs) are made of community-based healthcare practices that engage in clinical research and practice improvement. PBRNs develop research and quality improvement partnerships between practicing clinicians and researchers.

**OFFERED BY THE CLINICAL &
TRANSLATIONAL SCIENCE
COLLABORATIVE (CTSC)**

LOCATION: Cuyahoga County Coroner's Bldg.
11001 Cedar Avenue, Adelson Seminar Rm.
Cleveland, OH 44106

Free parking in the guest spaces and parking
garage at the Coroners building
