## **About Us MacDonald Women's Hospital**

The Department of Reproductive Biology at the School of Medicine at Case Western Reserve University is located in the Department of Obstetrics and Gynecology at MacDonald Women's Hospital, a part of the University Hospitals and the Case Medical Center. The Department has a rich history and tradition, boasting some of America's most notable names in Obstetrics and Gynecology as either former chairs or residents. The full-time faculty has almost doubled in size in the last four years, expanding the number of opportunities for education and research within the Case community. The Department includes Divisions of General Obstetrics and Gynecology, Maternal Fetal Medicine, Reproductive Endocrinology and Infertility, Gynecologic Oncology, Female Pelvic Medicine and Reconstructive Surgery, Behavioral Medicine, Midwifery, and Research.
