

## RESIDENCY IN OBSTETRICS AND GYNECOLOGY

The resident education program in Obstetrics and Gynecology at MacDonald Women's Hospital, is a fully accredited four year program. MacDonald Women's is an integral part of University Hospitals Case Medical Center, the primary teaching affiliate of Case Western Reserve University School of Medicine. MacDonald is one of only eleven free standing Women's Hospitals in the United States, and, except for electives, our program is based entirely within MacDonald. In 2006, based on the proven strength of our educational program, the RRC allowed our residency cohort to increase to 5 residents per year.

<b>Current Ob/Gyn Residents</b>	
<b>PGY4</b>	
Julia Girzhel, M.D.	Case Western Reserve University School of Medicine
Nashat Moawad, M.D.	Medical University of Ohio
