Filling Out the Entrance Caution Sign

Health:
- 4-Life Threatening
- 3-Major Risk
- 2-Minor Risk
- 1-Irritation
- 0-No Risk

Flammability:
- 4-Below 73°F
- 3-Below 100°F
- 2-Below 200°F
- 1-Above 200°F
- 0-Will Not Burn

Reactivity:
- 4-May Detonate
- 3-Explosive
- 2-Unstable
- 1-Normally Stable
- 0-Stable

- Environmental Toxicity
- Irritant Sensitizer
- Flammables
- Pyrophorics
- Self Reactives
- Organic Peroxides
- Skin Burns
- Metal Corrosive
- Explosives
- Self Reactives
- Organic Peroxides
- Acute Toxicity
- Gas Under Pressure
- Carcinogen
- Mutagen
- Teragen
- Oxidizers
- Biohazard
- Radioactive
- Electric Shock Hazard
- Ultraviolet
- Laser
- Thermal Hazard
- Regulated Chemical
- Formaldehyde
- Benzene
- Methylene Chloride
- Cryogenic Liquid

Personal Protective Equipment for Entrance:
- Personal Protective Equipment worn at all times, immediately upon entering lab. This does not include all PPE necessary to perform work, as found in the CHP.
